

LABOR LEADERS NOT FAR WRONG

Opinion of Justice Gould in the Buck Stove Case Affirmed, but Also Modified.

VIEW OF HIGHER COURT DECISION MAY HAVE A BEARING ON CONTEMPT PROCEEDINGS.

Washington, March 11.—The American Federation of Labor hereafter may freely refer to the boys and against the Buck Stove & Range company of St. Louis, except by inclusion in the "We Don't Patronize" list.

This, in substance, of widespread importance to the labor world, and generally, is the sweeping decision handed down today by the court of appeals of the District of Columbia in the noted injunction case of the Buck Stove & Range company against the American Federation of Labor.

Washington, March 11.—The court of appeals of the District of Columbia today modified and affirmed the opinion of Justice Gould of the supreme court of the district, enjoining the American Federation of Labor, Samuel Gompers and other defendants from publishing in the "We Don't Patronize" list the name of the Buck Stove & Range company of St. Louis. The opinion, which was handed down by Justice Robb, holds that the decree of Justice Gould should be modified to the extent that there should be eliminated from the decree the injunction of the labor organization and the other defendants from "mentioning, writing or referring" to the business of the Buck Stove & Range company, or its customers, otherwise the decree is affirmed. The court holds that the "combination" and boycott in furtherance thereof and the publication in the "We Don't Patronize" list, in aid of the boycott, are illegal. The court held that the defendants could not be restrained from all publications referring to the Buck Stove & Range company, but only to those made in furtherance of an illegal boycott.

Strong Dissenting Opinion.

In a partial dissenting opinion, Chief Justice Shepard took a strong hand in upholding the freedom of the press. He says that under the constitution the publication of the complainants name in the "We Don't Patronize" column of the Federationist was a step in the direction of a conspiracy to coerce independent dealers into refusing to have further business relations with that company. He cannot agree that the publication can be restrained for that reason. Regardless of its character, he says, the publication is protected from restraint in my opinion by the first amendment of the constitution, which is on and should be abridging the freedom of the press.

The chief justice holds that "the only remedy for malicious or otherwise malicious, wrongful and injurious publication is by civil action for damages and criminal prosecution. There are no powers to restrain the publication of a libelous article."

Does Not Settle Contempt Case.

The decision does not settle the appeal in the contempt proceedings in which Messrs. Gompers, Morrison and Mitchell were given jail sentences. This case will be heard later by the appellate court.

The labor leaders claim, so it is said, that if the reasoning adopted by Chief Justice Shepard and Justice Van Orsdal is followed in the decision of the contempt proceedings they will be able to upset the findings of Justice Wright and avoid serving terms of imprisonment.

Giving as his reasons for the opinion Justice Robb declared that the "We Don't Patronize" list of the American Federation of Labor, "constitutes a talmudic symbol indicative to the membership of the Federation that a boycott is on and should be observed," and said in regard to the decree that the court had a right to prevent the printing of this "unfair" list, but that "the decree should stop there and not attempt to regulate the publication and deliberation of other matter over which the court has no control."

Flatulency or Wind on Stomach As It Is Commonly Named, Means That Decaying Food Is Making Gas.

This most serious condition is very prevalent and results most distressingly and fatally oftentimes. The stomach in cases of flatulency is unable to digest the food properly. Decay sets in, gases form, extend the stomach, force their way downward into the bowels, and if not relieved it extends upward, pressing against the lungs, liver and heart, causing shortness of breath, belching, foul odors and many times sudden death.

Food which are filled with gases, when taken into a deranged stomach, cause flatulency rapidly, vegetables being especially given to this quality. Against such condition the stomach can do but little, because these foul and poisonous gases affect its glands, muscles and tissues to such a degree as to incapacitate it almost at once.

These gases distend the stomach in all directions, preventing the contractile muscles from doing their regular duties, or if they do force the gas from the stomach it goes elsewhere in the system with even more harassing results, and then the decaying mass still remains to generate more gases.

The most effective methods for allaying flatulency is to remove the cause of gas-making. An emetic will do this, but the stomach will have the same trouble the moment new food enters it.

Stuart's Dyspepsia Tablets get at gas food at once, digest it, prevent decay, quickly reduce food to nourishment, make good rich gastric fluid and pass the digested food to the intestines, leaving the stomach its rest and the system its nourishment. Flatulency simply cannot exist where these little tablets are used. They build up the stomach fluids so that it matters not how many vegetables you eat or food containing quantities of gas, the stomach does its work well and quickly.

Stuart's Dyspepsia Tablets are sold everywhere and used the whole world over by sick stomachs and stomachs that want to eat heartily and yet not get sick.

Every druggist carries Stuart's Dyspepsia Tablets, price 50 cents per box. The demand for these little digesters is constantly increasing. Forthrightly physicians in America and Canada use them and prescribe them. Send us your name and address and we will send you a trial package by mail free. Address F. A. POLICE COURT GLIMPSES

C. M. Thompson, a vagrant, who was arraigned in police court yesterday, having been arrested March 5 by Policeman Davidson, pled his own case and succeeded in proving that he had earned 50 cents during the two weeks previous to his arrest, as a "horse cuffer" at McCoy's stables. When pressed for an explanation of the term he explained that a "horse cuffer" was an equine chambermaid.

Judge Bowman, after hearing the evidence presented by both sides, asked Thompson if he would be willing to leave town under a suspended sentence of 100 days.

"How d'yer tink a man's goin' to leave town when he's pinched?" was Thompson's reply.

Judge Bowman refused to discuss the matter further, and the man was sentenced to make "big ones into little ones" on the city stone gang during the spring months.

ULTERIOR AIM IS SUGGESTED

Inquiry by School Board Committee About Tools May Be a Diversion.

At their own request several members of the Newman family will be heard before the teachers and school work committee of the board of education this afternoon at 4:30, when it resumes an investigation of the disappearance of some tools. The investigation has now narrowed down to the loss of about \$5 worth of tools and has developed little of importance.

There is a general feeling that the present hearing and inquiry about a few tools is to divert attention from other matters, inquiry concerning which might be more important. There is no denial so far that sons of William J. Newman, a member of the board, were entered on the payroll under assumed names, one of them adopting the cognomen of Davy Crockett.

THE GREAT FAMILY CONSTIPATION CURE

What do you do when constipated? If the head of a family, what do you advise others to do in such an emergency? These questions are important. Constipation is a very serious disorder, because it gives rise to troubles like skin diseases, rheumatism, etc. Also, the responsibility of directing the physical welfare of a family is a grave one, and it is important that you should know what to do in the little emergencies of life. Perhaps you have tried purgatives and cathartics and aperient waters and know by this time that they are too violent in their action for the average person and that, at best, they do but temporary good. You will never get permanent results from anything but a liquid laxative tonic. A mere liquid laxative will not do it, but a laxative and tonic combined, like DR. CALDWELL'S SYRUP PEPSIN, not only cures the constipation in a gradual, gentle way, but builds up and strengthens the stomach muscles so that they can again do their own work. It is a truly wonderful laxative tonic, pure, as attested to the Government, and so sure in permanent results as to win the friendship of thousands of American families, to whom it is the family and home laxative. It will safeguard your health and your family's health. Children like it because of its pleasant taste, and it is equally suited to all ages. You can obtain a bottle for 50 cents or \$1 of any druggist, and with it you can cure constipation, liver trouble, indigestion and dyspepsia, sour stomach, heartburn, biliousness and other symptoms of stomach, liver and bowel trouble.

FOLEY'S KIDNEY CURE

stops irregularities, strengthens the urinary organs and builds up the worn-out tissues of the kidneys so they will perform their functions properly. Healthy kidneys strain out the impurities from the blood as it passes through them. If you have any signs of Kidney or Bladder Trouble commence taking FOLEY'S KIDNEY CURE at once, as it will cure a slight disorder in a few days and prevent a fatal malady. It is pleasant to take and benefits the whole system.

How to Find Out.

You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased, and FOLEY'S KIDNEY CURE should be taken at once.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely cleared the brain of its pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed, and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble."
